Wholesale **PRICE LIST**

FALL OF 1948

and

SPRING OF 1949

W. T. Champneys & Son

Growers and Shippers of "Quality Plants"

APOPKA, FLORIDA

TERMS

1

CASH with order or C.O.D. unless credit has been established. Remittance of 25% must accompany C.O.D. orders.

2

A 25% deposit is asked on stock that is to be reserved for later delivery.

3

All orders for future delivery are accepted subject to our merchandise being salable material at the time it is wanted and our ability to deliver at that time. We are not responsible for crop failures or other factors beyond our control, which may keep us from making deliveries. Upon our knowledge of such, all orders and deposits we have received will be returned promptly.

4

250 plants of any one size and variety are sold at the thousand rate in cases where same is quoted. 25 plants are sold at the hundred rate. We guarantee our merchandise to be true to name and we ship only first quality stock at all times.

5

All prices are F.O.B. Apopka, Fla. We make no charge for packing and we allow the following discounts, when plants are picked up at the nursery and do not have to be crated:

10% discount on all stock from the peat farm.

10% discount on all grades of lining-out stock.

20% discount on all budded stock from the lath-house.

We will gladly arrange for truck delivery for you if you do not have this transportation available.

Azaleas

ROOTED CUTTINGS

ready for delivery July 1st through October. Our Azalea Cuttings are propagated in a medium that runs heavy to peat and this gives them a thrifty and vigorous root system. No cuttings are sent out without a good bunch of roots.

LINING-OUT STOCK . . .

ready for delivery practically the entire year. Best suggested for spring delivery—March through June. Our Azalea Liners are grown in specially prepared beds of shredded peat and they are never allowed to slow down or become hardened. They have a good lot of very-much-alive healthy roots that hold a quantity of our fibrous peat; not only is this very helpful to them in shipment but it gets them off to a quick start after you get them. **We call special attention to our 2-year Liners on Page 5.**

DORMANT, BUDDED STOCK FOR FORCING . . .

For Fall and Winter Delivery. Our budded Azaleas have a very heavy bud-count and are extra nice this year. They have been properly spaced for an even growth and have been sheared carefully to make nice pot plants. All of these are grown in mixtures that run heavy to peat and many are grown on our peat farm in full sunlight. This assures you that they will have a good root system, that they will carry well in shipment and that the transportation costs will not be excessive.

W. T. CHAMPNEYS & SON

LINING-OUT STOCK . . .

For delivery March 1st through June.

Not sold in lots of less than 25 of any one variety and size.

KURUME VARIETIES . . .

Hexe	Salmon Queen

5 to 7 Leads @ \$20.00 per 100

2-YR. OLDS for GROWING ON

(For Spring delivery only—March 1st through
June, 1949.)

This stock is the same as we sent you for liners last Spring but it has had the benefit of an additional year's growth in our warm climate (our growing-on stock is fed the entire year and makes a remarkable growth in that time). These plants will grade a heavy 3" to 5" crown, and in many varieties they will grade 4" to 6". They should make exceptionally nice pot plants for the coming season—they have been spaced properly and are thick and compact. We consider these outstanding values and we heartily recommend them for our growers who need stock that is heavier than our three regular grades of liners.

These can be supplied in the following varieties:

Coral Bell	Madam Pericat
Hexe	Twenty Grand
Salmon Beauty	Pink Pericat
Snow	Gardenia Supreme
Hinodegiri	Sweetheart Supreme
Orange Coral Bell	

\$25.00 per 100 or \$220 per 1000.

(Not sold in lots of less than 25 of one variety)

W. T. CHAMPNEYS & SON

Indica Azaleas

Kurume Azaleas

All of the above plants are grown in full sunlight on our peat farm, in wide rows and well spaced. We believe these are the best that may be obtained.

Azalea Coral Bell

These have been grown in field No. 1 since the spring of 1947 and have developed into perfectly shaped specimens for pot-plants. Due to the benefits derived from full-sun growing, they are the most compact, heavily budded plants we have ever had and are heavy 8-10", 10-12" and 12-15" sizes.

We have beds of Madam Pericat and Sweetheart Supreme that have done equally well.

Planning Ahead

This 10-acre planting of 90,000 Indica, Kurume and Pericat Azaleas in Field No. 2 is being grown for delivery to you in the fall of 1949. These plants are growing in full sunlight on our peat-farm. They are well spaced and should make perfect specimens for pot-plants or landscape work.

Azaleas

Note the heavy root system of these peat-grown plants. It is not necessary to burlap these for the roots hold a mass of fibrous peat, even when shipped long distances by truck or trailer, which means a saving to you.

Gardenia No. 23

We are growing a limited number of Gardenias on our peat farm this season. These are very full and compact and are exceptionally nice stock.

Azaleas

DORMANT, BUDDED STOCK..

Fall and Winter Delivery

Our stock of forcing azaleas is very good this season and we welcome your trial order. These plants are compact and bushy and have a heavy bud-count.

Azaleas

For **LANDSCAPE WORK** *in the SOUTH*

**We recommend Southern-grown,
large-flowering Indica Azaleas.**

WE have a nice block of plants, in both Kurume and Indica types, which will be showy and good landscape material for our patrons in the southern states. These are being grown on our peat farm and we believe the bud-count will make them outstanding. We are not equipped to crate these but we can send them out in truck or trailer loads and this means of transportation is available locally. We allow a 10% to 20% discount when plants are picked up at the nursery and do not have to be crated.

Formosa, 8-10" to 18-24"

Elegans, 8-10" to 24-36"

Coccinea, 12-16" and 18-24"

Brilliant, 8-10" and 10-12"

Geo. L. Tabor, 12-16"

President Clay, 12-16"

Latania Alba, 8-10" and 10-12"

Duc de Rohan, 6-8" to 10-12"

Macrantha Double Pink, 12-16" and 18-24"

Gardenias

Our Gardenia cuttings are propagated in beds of treated peat-soil and are free of nematodes—they are **clean**.

Our potted Gardenias are grown on raised benches in treated soil and are nematode-free.

Our B & B size Gardenias are grown in solid peat on our farm in full sunlight. They have been well spaced and are full and bushy. Continuous good care has given us some plants that we know will please you for they are dark green color and very nice. They are free of nematodes.

Veitchii and "23" Rooted Cuttings:

\$6.00 per 100 or \$50.00 per 1000

Veitchii	Per 10	Per 100
3-inch pots	\$ 4.00	\$ 30.00
4-inch pots	8.00	60.00

18 to 24 in., B. & B.....	20.00	150.00

(Less 10% for pickup at nursery)

Ligustrum Lucidum (Wax Leaf Privet) . . (For Spring Delivery)

These plants have been grown in wide rows, well spaced in the rows, and have made a full even growth. Proper pruning has made them very thick and compact and continuous care and good growing conditions have helped us to produce some exceptionally fine merchandise that has a glossy, dark green color. These will be a credit to any sales yard.

	Per 10	Per 100
12 to 18 in., B & B.....	\$10.00	\$ 90.00
18 to 24 in., B & B	15.00	125.00

(Less 10% for pickup at nursery)

GREENHOUSE *Plants*

Our greenhouse plants are carefully grown and equally as much care is used in packing them so that they will reach our customers in good condition—we realize that the very best plants are no good if they are not properly packed!

PHILODENDRON CORDATUM . . .

	Less than 50	
	Each	Per 100
Clean, healthy, large leaf stock that will please you.		
2¼" pot-grown, 4 to 6 leaves . . .	12c	\$ 9.00
No. 1, 2½" pot-grown, with 3 strong plants in each pot	28c	24.00
No. 2, 2½" pot-grown, with 3 vines tied to a 12-inch green stake—very attractive	35c	30.00
Rooted Cuttings, these are strong, healthy plants with 3 to 4 leaves, bench-grown in peat.	\$7.00 per 100 or \$60.00 per 1000	
Rooted Cuttings, single-leaf, eye and joint, ready to pot-up and grow on.	\$5.00 per 100 or \$40.00 per 1000	
(Philodendron R. C. not sold in lots of less than 100)		

POTHOS AUREUS (Devil's Ivy) . . .

These are very attractive for wall-pockets or individual novelty pots. They have been grown slowly in a light section of the greenhouse and are well colored.

	Less than 50	
	Each	Per 100
2¼" pot-grown, 4 to 5 leaves	12c	\$10.00

SAINTPAULIAS (African Violets) . . .

We have these in the well-known Blue Boy variety, and in an orchid-pink that we have developed in our own greenhouses. These are strong, healthy plants with perfect leaves that are not discolored. This is good, heavy stock that can be used for immediate sale.

	Less than 50	
	Each	Per 100
2½" pot-grown	30c	\$25.00
3" pot-grown	40c	35.00

Greenhouse Plants

NEPHTHYTIS LIBERICA . . .

This is a good house plant that can be grown in either soil or water. Its glossy green color and large leaves make it very attractive.

	Less than 50	
	Each	Per 100
2¼" pot-grown	12c	\$ 9.00
2½" pot-grown, with 2 strong plants in each pot	18c	\$15.00

NEPHTHYTIS PICTURATA . . .

(Variegated green and white)

These slow-growing plants are very good for dish gardens and indoor work. They are very attractive and, though very slow growers, we recommend them.

	Less than 50	
	Each	Per 100
2¼" pot-grown	20c	\$15.00

(All potted plants shipped in paper pots.)

PEPEROMIA OBTUSIFOLIA (green) . . .

Dark, glossy green, oval leaves.

These plants are well suited for dish garden work or for novelty pottery. Less than 50

	Each	Per 100
2¼" pot-grown	10c	\$ 8.00
Rooted Tip Cuttings, suitable for immediate use or for growing on. 3 to 4 leaves	8c	7.00

VARIEGATED PEPEROMIA . . .

(Our stock is highly variegated and is considered exceptionally good.) Less than 50

	Each	Per 100
2¼" pot-grown	15c	\$12.50

DRACAENA GODSEFFIANA . . .

(Shiny green, splashed with white and yellow)

This highly variegated little plant is one of the best dracaenas for dish-garden work and novelty pots.

	Less than 50	
	Each	Per 100
2¼" pot-grown	15c	\$12.50
2½" pot-grown	20c	17.50

SERISSA FOETIDA (Variegated) . . .

This is an attractive little plant with yellow-margined leaves, suitable for dish gardens and novelties. These have been pinched often and are compact and full.

	Less than 50	
	Each	Per 100
2¼" pot-grown	12c	\$10.00

W. T. CHAMPNEYS & SON

VISIT our nursery and select the plants you want. Our prices, as well as our merchandise, will be attractive. It is always a pleasure to have you and we know you will enjoy seeing our operations here much more than reading about them in our catalog.

Please give us a little advance notice when you plan on making a trip to Apopka, whenever this is possible. We will gladly arrange for hotel accommodations for you if you will advise us of your requirements.

Our homes and nurseries are located at Apopka, 12 miles northwest of Orlando, on Highway 441. Fast 'plane or train service to Orlando and we will gladly meet you at the Airport or Railroad Station—just phone us.

Our Telephone—APOPKA 2411
